The 'Tools' menu enables you to access the 'Watermark Maker' component, so you can

ImageCool Free Watermark Maker Product Key [Latest]

KEYMACRO is a tool for the creation of key macros. With KeyMacro you can define an action for a series of keystrokes, e.g. to copy a text to the clipboard, save an image to your PC etc. Simply drag the desired keystrokes into the action window and name it. There you can choose the keys (or mouse-clicks) you wish to act as an instruction for the action. A big advantage of this tool is the graphical explanation of each action. You can even edit actions you already created. After the action is defined you can quickly and easily repeat it at any time. The action is stored in the toolbox, so it will be available for your next session or for a later modification of your operating system. How to use: Go to the Add New Item dialog and select "KeyMacro" as action. Choose the action to be stored in the KeyMacro toolbox. Drag and drop your actions from the toolbox into the dialog. Click the OK button to save the KeyMacro action. To use the KeyMacro action, the keys you defined for the action are activated. If you are working with a keymap, the keys are listed. To use the action, simply press the desired key (or mouse-click) or click the appropriate menu option. MediaPro is a powerful yet easy-to-use audio and video editor.
