Two faces of a coin: one face is pretty, colorful and intuitive, the other one is serious and logical. Hompath Edge does not fit into one category. The student side is intended for a quick overview of the basics, case studies and a fun way of learning. The doctor side is made with a serious character, in which your friends from the hospital, call your phones and more. The process of learning is as easy as taking a picture: your phone draws the patient graph, you answer some quick questions and also write a prescription. Everyone is welcome: the patient is waiting for your help, whether you are a doctor, a nurse or a hospital receptionist. Small and easy to learn and use, are just some of the things that you will find in this tool. This application gives you a chance to play with your patient registry and practice writing orders. Hompath Edge includes a fun add-on for those who do not want to limit themselves to the study time. The complete study becomes an enjoyable moment with the high-quality game of bowling. Hompath Edge Video Tour: Hompath Edge Features: • Read about the history of medicine and find references for your cases! • Watch how your patients are feeling in the present time. • You can write your own prescriptions. • Practice writing and writing orders, step by step. • Analyze your graph with the help of hospital experts, if you wish. • Learn about the most important drugs and their characteristics. • Keep in contact with your friends and colleagues, even when you are off studying! • Think about the cost of the medications, so you won't write a prescription that will end up in the hospital. • The application is easy to learn and has a lot of
