dll that is missing on your computer. Try reinstalling the program to resolve this issue. You need to install two... and more if required. The debugger program tries to keep track of all changes made to your program, unlike standard debuggers, which can only work with the part of the software that you provide for viewing. This can lead to confusion. If you already have a debugger, it's likely that you'll want to use it. If you don't have it, you can install it by downloading it from www.software.com.
